

## INTERNATIONAL SEARCH REPORT

International application No.  
PCT/AU2004/001303

## A. CLASSIFICATION OF SUBJECT MATTER

Int. Cl. <sup>7</sup>: C12N 1/14, C12N 9/00

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)  
WPIDS, MEDLINE, CA PLUS, BIOTECHABS: Ophiostoma, floccosum, mutants, proteins, enzymes, peptides, overexpression, secrete, excrete.

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	Y. Tadesse. et al. 2003. Real time RT-PCR quantification and Northern analysis of cerato-ulmin (CU) gene transcription in different strains of the phytopathogens <i>Ophiostoma ulmi</i> and <i>Ophiostoma novo-ulmi</i> . Molecular Genetics Genomics 269: 789-796. (See abstract and material and methods).	1-2, 5-10
X	Bradley Temple. et al. 2000. Biological roles for ceato-ulmin, a hydrophobin secreted by the elm pathogen, <i>Ophiostoma ulmi</i> and <i>Ophiostoma novo-ulmi</i> . Myclogia 92(1), pages 1-9. (See abstract and Molecular Approaches).	1-2, 5-10
X	Bradley Temple. et al. 1997. Cerato-ulmin, a hydrophobin secreted by the causal agents of Dutch Elm disease, ia s parasitic fitness factor. Fungal Genetics and Biology 22: 39-53. (See abstract).	1-2, 5-10

Further documents are listed in the continuation of Box C

See patent family annex

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"E" earlier application or patent but published on or after the international filing date

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"O" document referring to an oral disclosure, use, exhibition or other means

"&" document member of the same patent family

"P" document published prior to the international filing date but later than the priority date claimed

Date of the actual completion of the international search  
2 November 2004

Date of mailing of the international search report

5 NOV 2004
